10. [redacted] LIAISON Following internal discussions with [redacted] DDI/CSS, Herb Hetu, APA, and [redacted] O/DCI, I called Ron Tammen, in the office of Senator William Proxmire (D., Wis.), to discuss the matter of the Director's speaking engagement before the Commonwealth Club in San Francisco this weekend and his reference to material which was scheduled for release in a Joint Economic Committee publication on the Soviet economy next Tuesday.

Tammen said he thought there would be no objection on the Senator's part if there was no discussion of the details to be contained in the report (in fact this might generate interest in it) but he thought the Senator would be upset if the Director engaged in extensive discussions of the material to be contained in it. I told Tammen that this seemed reasonable enough and I would pass this on to the Director with a suggestion that he might want to talk with the Senator personally about it. (I learned later from the Director that he had indeed talked to the Senator and had decided to modify considerably his discussion on the details of this subject.)

12. [redacted] LIAISON Received a call from Col. Dick Fischer, Standard Oil Company, who asked how Rady Johnson, former Deputy Assistant Secretary of Defense for Legislative Affairs, and now with Standard Oil, could receive unclassified Agency publications such as the ones on world energy and Soviet oil production. I told Col. Fischer that I could probably get him copies of these documents on a one-shot basis but that Mr. Johnson and the Company could get this information directly from the DOCEX System of the Library of Congress. Col. Fischer thanked me for this information and assistance.
